

Appendix B. Sampling of comments that were mixed on electrifying and paving of Salmon Lake State Park campground.

Comments:

Paving is a good Idea
Power not so much

Paving would be good
Reserve judgement on elec. 7/26/09

Comments:

No pavement campgrounds
Yes on electricity / no generators

- Hook ups would be good
- Paving camp site would be bad it would feel like camping in a parking lot.

Comments:

paving the roads is a good idea.
I don't really see the need for power at the camp sites
